

ISAT 09-10 Reading Performance by Student

Audience: Teachers

Need: It is the start of the school year. I want to see how my kids performed on last year's ISAT Reading test, so I can identify areas of focus to include with first six weeks already planned curriculum. I also need information to help with student grouping and interventions.

To examine the data:

1. Look at the ISAT Reading KPI. Compare the Teacher percent proficient/advanced value to the School, District and State (roll your cursor over each bar to view each). Click **Details**.

2. On the KPI detail screen, compare performance across the sections you teach (if there is more than one). Click on a section of concern to view by student.

Questions for Understanding

- Which students may need extra support?
- Are there students who did really well in most sections but poorly in one or two?

Task

- Export a section to Excel and add a column for group assignments.
